

ONYX MATTE

SOFT AND NATURAL FEELING

INSPIRING PANELS

OUTSTANDING
ONYXMATTE

ONYXMATTE

Oneskin Inspiring Panels is glad to present its latest development, the super matte surface which is an exceptional combination of state-of-the-art lacquering technology followed by unique set of surface treatment processes.

ONYXMATTE gives a new sensation among super matte materials with even deeper matte characteristics (light absorption) and highest resistance to finger prints, scratches and abrasion, connected with soft, warm and natural feeling.

ONYXMATTE is available with exclusive range of solid colors and abstract, stone, wood and metallic finishes, giving vast possibilities for various design options whether it is a modern kitchen, a vintage bedroom, an industrial office area or a luxurious hotel lobby.
